Subject: Drug Testing changes amid COVID-19 crisis

With the new state mandated “shelter in place” being put into effect by Governor Baker on Tuesday March 24 @ 12pm drug testing will only be available to those needing a return to work test ONLY if they are in fact going out to the field to work.

The standard protocol for post accidents is still in place.

We will NOT be testing for any new hires or renewals. There will be no exceptions.

To continue to provide service to our members with all necessary precautions in place we will wait for the direction from the CDC and Governor Baker and will reassess our testing availability after April 7th as stated by Governor Baker.

There will be no walk-in service available at Modern Assistance Programs, Inc.

To be placed on the future testing schedule please email Judi Melvin-Conners @ JMConners@modernassistance.com:

1. Name
2. Phone Number
3. Union
4. Apprentice/Journeyman
5. Reason for Test
6. Which person or company requesting test (if applicable)

Please feel free to contact us with any questions @ 617-774-0331.

We here at Modern Assistance thank you for your patience and wish everyone good health.
